

4 Post Lift with Centre Jack SXJS5019B (Electric Unlocking)

Features:

1. Both column and beam are bent by one-piece steel, more stronger.
 2. New beam structure is more beautiful, daily maintenance or parts changing more easier.
 3. Ramp with punching design, more slip resistant performance.
 4. With more security protections, with anti-broken lock for steel ropes, passed a test of up-down contentious movement 1000 times.
 5. All oil hoses are hidden and protected under platform. Manual and electric control system can be optional.
 6. Standard with electric jacking beam, low noise, lifting fast, very convenient.
- This lift design is suitable for alignment service, and car repairing.

This lift design suitable for alignment service requests, and car repairing requests.
