

Automotive Stehoscope AB5801

- Professional tool for commercial or occasional use.
- Dual tube mechanic stethoscope.
- Excellent engine analyser troubleshooter locates source of engine noise quickly.
- With an audible tone, you can settle the problems much easier by tracing sound of flowing water / oil / gas or steam with this tool.
- Used to identify piston slap, worn gears, faulty valves, water pump failure, damage gaskets and defective bearings.
- 2 piece metal probe extends another 8" (so a total of 113/4") (29.85cm) for hard to reach spots.
- Super sensitive ear pieces and probe.
- Plastic handle with heavy duty flexible vinyl tubing.
