

Features:

1. Column and beam, all by one-piece bending technology, more stronger.
2. Beam using the new pinch plates, more beautiful, daily maintenance and parts disassembly more easier.
3. Ramp with punching design, more slip resistant performance.
4. More security protections, steel wire rope with broken-proof lock, passed one thousand uninterrupted fatigue safety testing.
5. All oil hoses are hidden and protected under platform. Manual and electric control system can be optional.
6. Standed equipped with electric jacking beam, low noise, lifting fast, very convenient.

This lift design suitable for alignment service requests, and car repairing requests.
