

Features

- Zinc plated longhandle allows ease of pumping.
- Welded construction NO LEAK
- Safety valve prevents the ram from being overextended causing damage to the cylinder.
- Inner safety valve prevent the user to adjust the system
- Arc surface bottom of the steel base to make the load in the center of piston.
- Prevent rust with ENP (electroless nickel plating) ram piston, amake it smooth, bright, and long life.
- Double seals in the pump to prevent the oil leak.
- Light weight forged base providesmore steel only where strength is required.
- This design creates a better, stronger design with the tank welded directly to the forged base.
- Longer life than normal screw connection jack due to smooth bearing surfaces and close tolerances.
- Carrying handles on big capacity jack for easy transport.
